

Entering Scores from your Smart Phone or Home Computer

If you are having issues phoning in scores to GotSoccer, you can enter scores from your smart phone or home computer.

From your smart phone:

- 1) Go to www.gotsoccer.com
- 2) Click on the Scoring link

- 3) Enter your event id and pin from your game card, just as you would for the phone in service.
- 4) Click **Go**

- 5) Enter your game number and press **Go**

6) Next click on the **H**ome or **A**way team box

The screenshot shows the 'gotsoccer mobile' interface. At the top, there is a 'Game List' section with a 'Game #' input field containing '110' and a 'Go' button. Below this, the game details are displayed: 'Dragonfest - GU16 - Gold #110' on '7/23/2011 12:30 PM' at 'Field 02B'. The home team is 'TEXAS LONGHORNS (TXN)' and the away team is 'SOLAR 87 (TXN)'. To the right of the team names are four columns of input boxes labeled 'H' and 'A' for 'Y' and 'R'. The 'H' column for 'Y' is highlighted with a red box. At the bottom, there is a link for 'Privacy Policy & User Agreement' and a copyright notice for '©2011 GotSoccer, LLC'.

7) Enter the score and press **Save**

The screenshot shows the 'Final Scores' section of the GotSoccer mobile app. It features a 'Back' button on the left. In the center, there are two input fields: 'Home' (blue) and 'Away' (orange). To the right of these fields is a 'Save' button. The 'H' and 'A' columns for 'Y' and 'R' from the previous screenshot are visible in the background. A red box highlights the 'Home' and 'Away' input fields and the 'Save' button.

8) That's it.

If you want to use your home computer:

Go to www.gotsport.com/m or click this link and follow the instructions above.
